DISTRIBUTOR INFO

DID YOU KNOW... TIPS THAT MAKE A DISTRIBUTOR'S LIFE EASIER!

- Master Lock has a network of local sales reps available to respond to your needs!**
See back cover for local rep contact information.
- Special locker lock phone number!**
You have access to a team of locker lock focused Customer Care representatives. This team is extensively trained and located at Master Lock's Headquarters. With direct connection to all the decision makers, they're ready to answer your questions! Our friendly locker lock team's direct number is: **1-888-878-9952**

- Easy new web based ordering system!**
Master Lock has a new web based commerce site where you can place orders 24/7/365 at masterlockshop.com. Why order this way? It's easy and accurate with instant order acknowledgements. Your fastest way of getting an order in our system. Easily track your orders or use it as a quotation tool. Contact our Customer Care team for details on how to sign up or visit our web-site for more information. Ask about our sign-up incentives. After sign up our team is there to continually support you as you need them.

Visit our website:
www.masterlock.com/masterlockshop

- Quick Ship Stock Locker Lock Program will ship your order within 48 hours!**
A selection of our most popular locks are now stocked in Louisville, KY. See page three for more information.
- Track your orders online!**
Regardless of how you place your order (web, fax, etc.), you can always track your orders online. Basic information is available with just the PO and delivery zip code. Additional information is available after setting up an account. Ask our Customer Care team or go to our web site for details.

Track online at:
www.masterease.com

- Place an order for future delivery!**
On time when you want it! If you place a future order, we will delivery the order within one working week of your requested date. We make your planning easy!
- Library of product videos that can be used to enhance your website!**
Videos are a great way to excite your customers! We make it simple to access our product videos directly from your website at no cost to you. Go to our website and look for the "videos" button for easy to use instructions. Ask our Customer Care team or your Sales Rep for further information or assistance.

Master Lock Company Terms Of Sale

EFFECTIVE SEPTEMBER 2011, AMMENDED NOVEMBER 2011

All orders are subject to acceptance by Master Lock Company LLC, Milwaukee, WI, USA

Prices:

- All prices are stated in US dollars (\$).
- Orders are subject to prevailing prices on order acceptance date.
- Prices subject to change without notice.

Minimum Order:

- US\$50 on all catalog items except parts and keys

Additions/Changes:

- Once your order has been processed, additions, cancellations, or changes may not be accepted. A separate order may be required.
- Items are subject to discontinuation without notice.

Freight Terms:

- All shipments within the US and Canada are FOB destination.
- Shipments to Alaska or Hawaii will be to US port of exit (LA or Seattle)
- Master Lock will pre-pay freight charges on all orders over US\$1000 (based on net prices) to a single destination within the contiguous United States and Canada.
- Orders destined to AK or HI ship prepaid to the customers designated freight forwarder in either LA or Seattle.
- Freight charges on orders less than US\$1000 (net) will be shipped on a Prepay & Add basis with freight charges being added to the customers invoice.
- Master Lock reserves the right to select both the carrier and mode of transport when shipping on a Prepaid or Prepay & Add basis.
- Customer is responsible for any charges in excess of normal transportation that result from services requested by the receiving party.
- All international shipments are FCA US port of export.
- On request, charts/keys can be shipped separately from the locks. Charts and/ or keys will be sent prepaid in the total order, including locks, is over \$1000 net price. When orders are under \$1000 net price, shipping charges will be added to both the charts/key invoice and lock invoice.

Claims:

- Any claims for shortages or damages for which Master Lock Company or our freight carriers are responsible must be reported within 30 days after receipt of merchandise.
- Receivers must note visible discrepancies on the carrier's copy of the delivery receipt in order for the claim to be valid. Visible discrepancies include, but are not limited to, open, torn, crushed or water damaged cartons; piece counts that do not match the delivery receipt, etc.
- Master Lock uses yellow stretch-wrap. If freight is received with clear or any other color, it should be notated on carrier's copy of the delivery receipt.
- Concealed damages must be reported within 5 business days in order to determine liability.
- All carriers claims on prepaid (or prepay & add) shipments are filed by Master Lock.

Sales of Key Controlled Systems:

- Master Lock customer shall only sell key controlled lock systems to distributors, businesses, and institutions.
- For replacement control keys offered for sales, Master Lock customer agrees that it will validate each prospective buyer is an owner of the applicable key system

Safeguards for Controlled Key Systems:

- Master Lock customer shall only sell key controlled lock systems to distributors, businesses and institutions.
- For replacement control keys offered for sale, Master Lock customer agrees to validate that each prospective buyer is an owner of the applicable key system.

Returned Goods:

- No merchandise may be returned without authorization from Master Lock Company.
- All returns must have a Returned Goods Authorization (RGA) Number issued by Master Lock Company Customer Care.
- The RGA must be shown on all labels and correspondence with regards to returned merchandise.
- All returns must be prepaid and returned within 30 days of authorization in order to receive credit.
- A minimum 15% handling charge will be assessed on authorized returns.
- Returns received without prior authorization (RGA Number) may be returned to the customer.
- Returns will not be authorized for custom "Made To Order (MTO)" products and/or products built to a specific customer requirement such as laser engraved, master keyed or keyed alike products.
NOTE: All Master Lock products are considered MTO.

Payment Terms:

- Standard: 2% 20 days, net 31. Anticipation discounts are not allowed.

Limited Lifetime Warranty:

- If a product fails due to a defect in material or workmanship at anytime during the life of the product, we will replace it free of charge.
- This warranty gives you specific legal rights, and you may also have other rights, which may vary, from state to state, province to province, country to country.
- Master Lock is not liable for incidental or consequential damages.
- This warranty does not cover products which have been abused, altered, damaged, misused, cut or worn. Products over 10 years old will be evaluated and inspected for abuse, alteration, damage, misuse, and wear prior to warranty coverage.
- Prior to receiving a RGA for warranty claims, the following information needs to be provided for each lock claim: lock model number, serial number, lock combination (if applicable), lock key number (if applicable), how being used, and description of failure. Failure to provide this information will cause delay or denial of the warranty claim.
- To the extent permitted by law, MASTER LOCK COMPANY disclaims all other implied or express warranties including warranties of merchantability and/or fitness for a particular use.
- Some governments do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.
- Replacement information and complete warranty information are available at www.Masterlock.com or call Master Lock at 1-800-308-9244 within the United States, 1-800-227-9599 within Canada.

Serial Number Charting Available

- Installation registration prevents serial number duplication and assures key system security.
- An original list of lock serial numbers and corresponding combinations are furnished at no extra charge with a lock order.
- Replacement Control Charts are available at a \$50.00 net price per individual chart request.
- A complete end-user history control chart is available at \$100.00 net price per request.
- A written request on school or company letterhead is required. For complete chart request instructions please visit www.masterlock.com/faq/school.shtml

Thank you for specifying Master Lock® locker locks! We want to provide you with the finest possible service and product.

Please be sure to provide the requested information with your order. This allows Master Lock Company to process your order in the most timely manner possible.

1. **Provide the full name, address, and postal code of the school or other ultimate user.** We require this information to register serial numbers and key systems to each specific installation. This enables us, on future orders, to continue with or avoid the key system of record, and it ensures non-duplication of serial numbers already in use. **Failure to provide end user information will delay processing the order.**
2. **Indicate which key system we are to extend.** Many Master Lock installations use the same lock model but several different key systems. The key system is stamped on control keys and master keys currently in use. If a new key system is required, one different from any now in use at the installation, state your order "furnish new key system."
3. **Each Type of Master Lock built-in combination lock has two model numbers; one for locker door hinged on the right as you face the doors, and one for left hinged doors.** For example, the Master No. 1630 mounts only on right hinged doors, while Master No. 1631 can be used only on doors hinged on the left. Be certain to check your application and specify the correct lock model for the lockers involved. This will avoid costly and time-consuming replacements. Since lockers vary in styles and design, your Master Lock Representative is available to assist in determining the correct lock to be used on your particular application.
4. **Replacement Control Charts:** Replacement control charts are available at a \$50.00 net price per individual chart request.

IMPORTANT

Quick Ship Stock Locker Lock Program

Quick Ship Stock Locker Lock Program – Ships within 48 Hours!

When your customers need locker locks in a hurry, you can deliver with the Master Lock Quick Ship Stock Locker Lock Program's inventory of stocked locks. Master Lock will ship within 48 hours of receipt on the order.

Special Programs

NEW CONSTRUCTION PROMOTION! Starts January 1, 2011

A \$2.25 or \$4.25* list price discount is available on built-in locker locks for new applications that meet one of the following requirements:

1. New verified end user or installation
2. Verified new built-in lock product number for established end user
3. Verified new control key/master key for established end user

*\$2.25 list price discount to qualifying Nos. 1630, 1631, 1652, 1653, 1654, 1655, 1670, 1671, 1690

\$2.25 list price discount to the following qualifying ADA products (New for 2012): Nos. 1636MKADA, 1637MKADA, 1656MKADA, 1651MKADA, 1676MKADA, 1677MKADA, 1695MKADA

\$4.25 list price discount to qualifying Nos. 1710MK, 1714MK, 1790MK (note – only applies to master keyed locks)

Note to Master Lock distributors: Include promotion "10003" on your order. If you are using online purchasing, you must use the attachment feature to place the promotion on your order. Your normal distributor discount is applied to determine your actual savings per unit.

ADA Compliance Defined

The Master Lock 1600 ADA Series and 1700 ADA Series Built-in Locks meet the United States Department of Justice "2010 ADA Standards for Accessible Design". This Standard requires 5% of lockers meet ADA specifications. In addition, these standards state that operable parts, the locks, meet the following requirements:

- Shall be operable with one hand
- Shall not require tight grasping, pinching, or twisting of the wrist to operate
- Shall have a force required to activate of 5 lbf (22.2N) maximum

Master Lock ADA Compliant Locker Locks achieve these requirements through the use of a specially designed keyhead and the simple operation of the lock. The large flat keyhead makes the key easy to grip for those with extreme joint pain. For those with clenched fist dexterity, the flat keyhead fits securely between their fingers. The operation of the lock can be achieved by a simple bumping action to the ADA keyhead to both open and close the lock without the need of tight grasping, pinching, or twisting of the wrist.

Many of these locks are already in use in the field for ADA applications.

As needs and requirements vary, please consult the local authority regarding use of any of these locks for a specific application.

1600 ADA SERIES BUILT-IN COMBINATION LOCKS WITH STUDENT KEY/ MASTER KEY

Three-Ways-To-Open™ technology lock:

- Student key for ADA users (opens 1 lock)
- Master key for supervisors (opens all ADA locks in your system)
- Combination for use like other combo locks in your system (5 combinations built in for reuse year after year)

Black plastic dials standard. Metal dials available in black, green, purple, red or blue. Two keys with ADA keyheads included; order master keys separately. Left hand models available; see chart

ADA Inspired Defined

Master Lock ADA Inspired locks address special needs beyond those outlined in the "2010 ADA Standards for Accessible Design". These portable locks are designed to be easy to use and assist those with physical or cognitive challenges operate a lock independently. All ADA Inspired locks fit most standard lockers.

1525EZRC Simple Combos™

- Simple Combos™ – specially selected combinations that use only numbers printed on the dial (no sub-increments) so users can more easily recall and dial their combination
- Supervisory key override matches existing Master Lock portable systems, plus key can also be matched with many built-in combination lock systems
- Colored dials – black, green, purple, red, blue, orange, grey or gold, and customization with your logo or text available

2076 SmoothSpin™

- No-grip dial lets users simply rub to open – essential for those with difficulty turning dials
- Supervisory key override matches existing Master Lock portable systems, plus can be matched with many built-in combination lock systems
- Colored dials available – black, green, purple, red, and blue

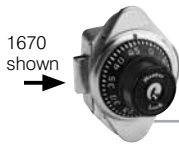

2650 PushKey™

- Easy-to-open and simple-to-use – simply insert the key and pull down on the flared, easy-to-grip body to open (no key turning required)
- Includes four keys, two with large key head covers which makes gripping easy for anyone

For more information please contact us at 888-878-9952 or visit us at www.masterlock.com/ada

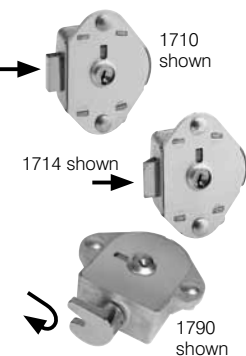

See how they work:
www.masterlock.com/school/video

Note: Single Point Latch Lockers are transitioning from horizontal latching to Wrap Around Latch™ latching. Please verify which latch type works in your application prior to placing your order.

BLOCKGUARD® ANTI-SHIM PADLOCK TECHNOLOGY!

Advances padlock security to the next level.

Continuing to lead the market with innovative security solutions, Master Lock now offers the patent-pending BlockGuard® Anti-Shim Technology – the very best in shim deterrence for combination padlocks.

These enhanced combination locks deter shimming, a method of violating a lock by inserting a specially designed shim tool into its latch mechanism. BlockGuard® has unique flat latch technology that actually blocks typical shimming tools from opening the lock – deterring break-ins.

Master Lock exclusive BlockGuard® Anti-Shim Technology is now available on Models 1502, 1525 and 2076 with supervisory key control.

Then, now and always... Master Lock, a brand you can trust!

Model 2076
Models 1502 & 1525
see page 6 for pricing

WRAP AROUND LATCH™ TECHNOLOGY!

The Best Lock for Single Point Latch Lockers!

LESS MAINTENANCE, MORE SECURITY, EASY TO USE

The all-new patent pending model 1690, 1695MKADA, and 1790 built-in locks use the same technology as an automotive door lock system, utilizing slam shut operation combined with a rotating latch that wraps around the latch plate. Designed for Single Point Latch Lockers, these locks provide the most robust design and requires the least adjustment for proper operation.

Patent Pending

Model 1690
see page 5 for pricing

LATCH WRAPS AROUND THE LATCH PLATE

Also available in a keyed model (1790) and master keyed ADA model (1695MKADA).

EXTREMELY PRY RESISTANT

FRONT VIEW

BACK VIEW

The lock latch can not be easily separated from the latch plate through horizontal or vertical prying.

Latch hits side stop and bottom before disengaging. Can not come off latch plate!

EXTREMELY SHIM RESISTANT

FRONT VIEW

BACK VIEW

Even in the case of ventilated lockers the 1690/1790 hold strong as the Wrap-Around-Latch™ prevents the use of shims and similar techniques for opening the door.

Dead bolt latch automatically locks in position once the locker door is shut, preventing defeating the lock through attempts to move or shim the lock.

INCREASED HORIZONTAL TOLERANCE

FRONT VIEW

BACK VIEW

A wider operating range reduces the need for call backs or future maintenance adjustments. This saves your facility time and money.

The 1690 design offers a much wider operating range.

View the 1690 Video at www.masterlock.com/school/video

ADA BUILT-IN LOCK TECHNOLOGY!

Same Look as Standard Lock Helps Mainstream ADA Students

3 Ways to Open Locks!

1. Student Key (for ADA student)

- Two keys provided with ADA keyheads
- Key only opens one lock

2. Master Key (for supervisors)

- Each master key opens all ADA locks in your system
- Each master key system has between 475-592 key changes

3. Combination (for use like other combo locks in your system)

- 5 combinations built in for reuse year after year
- Automatic combination reset once door is shut

*as defined on page 4

Model 1636MKADA
see page 5 for pricing

Also available: Models 1637MKADA, 1651MKADA, 1656MKADA, 1676MKADA, 1677MKADA, 1695MKADA.

UNMATCHED SERVICE

Master Lock has a nationwide network of local sales representatives, locker and school supply distributors. Our factory-trained sales representatives provide expert planning, product selection, lock management and support services. Master Lock sells through locker

distributors that specialize in locker installation, service and repair. The school supply distributors service educational customers by consolidating multiple, related products.

COMPLETE SUPPORT

Master Lock provides a printed chart of every lock serial number and combination in an installation. Facility administration can use the printed chart to record locker assignments and the corresponding combination.

Or, management can use the combination chart data files and upload the information directly to LockerManager®. Replacement or additional control charts, printed copies or data fileshare available to registered end users.

CONTROLLED SECURITY

Security management is crucial to any installation. Therefore, Master Lock registers authorized end users and maintains installation records in an extensive database. These records make it easy to expand your system, eliminate duplicate lock serial numbers within a system and disperse control keys by zip

code to avoid key crossover between schools. Master Lock provides control keys with the original installation of a key controlled lock system. The keys provide quick, supervisory access to any lock in the system. Replacement keys are only available to registered end users, directly from Master Lock.
